

A NATURALLY TOUGH, PROFESSIONAL GRADE DECK FINISH

Timber Pro UV Deck & Fence Formula is a professional grade finish to stain, seal, and protect your natural wood decking. Deck & Fence Formula is formulated with durable, penetrating oil resins that are carried in pure water. This formula gives you the toughness of an oil finish combined with the envirosafe qualities and easy cleanup of a water-borne product. Our oil resins cure into a hard, non-sticky finish that will never attract dirt, dust, or mildew. They penetrate deep into your wood to protect it from the inside.

Deck & Fence Formula repels water to stabilize your wood and prevent rot. It contains a low-toxicity algaecide and mildewcide to protect the deck from the mold and mildew that are a common problem in wetter climates. Deck & Fence Formula also contains multiple UV reflectors and absorbers to prevent the fading and deterioration caused by the sun.

Available in [5 standard colors](#) and over [40 custom colors](#), you are certain to find a shade of Deck & Fence Formula stain to coordinate well with your home. If you want your deck to weather naturally to gray, our Clear UV formula will preserve your deck without affecting the color.

ADVANTAGES:

- Beautiful, natural-looking finish available in your choice of colors
- Easy application, cleanup, and maintenance
- Enviro-safe formula has no unpleasant fumes, will not harm children, pets, or plants
- Hard-drying, penetrating formula will not track into your home
- Prevents mildew growth that can make your deck slippery and dangerous
